License Agreement

GuardingPearSoftware Obfuscator

Terms and Conditions for the Use of the Work

---

1. Definitions

"License" shall mean the terms and conditions for the use of the Work as defined by Sections 1 through 17 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License. For the purposes of this License, the Licensor is GuardingPearSoftware, Tim Uhlott, Donders-Ring 31, 48151 Münster, Germany, email guardingpearsoftware@gmail.com.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or **"Your"**) shall mean an individual or Legal Entity exercising permissions granted by this License.

"Third Party" are all individuals or Legal Entities that are neither the Licensor nor You.

"Seat" shall mean a single license for one individual. A Seat authorizes exactly one person to use or access the Work and its asset files. You may hold multiple Seats.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included here or attached to the work.

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source

code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License

Subject to the terms and conditions of this License, and to Your payment of the applicable fees and holding of a valid Seat, the Licensor hereby grants to You a non-exclusive, non-transferable, non-sublicensable, worldwide, revocable copyright license (by the Licensor only) to install, use, and run the Work in Source or Object form for Your own internal and commercial software development purposes, subject to the Seat limits set out in Section 4 and the restrictions set out in Section 6.

3. Grant of Patent License

Subject to the terms and conditions of this License, the Licensor hereby grants to You a worldwide, non-exclusive, revocable (by the Licensor only and as stated in this section) patent license under those patent claims owned or licensable by the Licensor that are necessarily infringed by the Work, solely to use the Work as expressly permitted in this License. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License shall terminate as of the date such litigation is filed.

4. Seat-Based Licensing

The Work is licensed on a per-Seat basis. A Seat is a license for one individual. You must acquire one individual license (one copy) for each person who directly uses or accesses the Work or its asset files (for example, each developer who integrates or works with the Work). You may hold multiple Seats, and You may permit use of the Work only by the number of individuals for which You hold valid Seats.

5. Permitted Use

You may use the Work to develop, build, and ship Your own Unity applications and games. The protective or functional output produced by the Work may be distributed as an integral part of Your own end-user applications. Such output is not considered a copy of, or a Derivative Work of, the Work for the purposes of Section 6. No other use is permitted except as expressly set out in this License.

6. Restrictions

Except as expressly permitted in this License, You may not, and the following are prohibited:

1. reproduce or distribute copies of the Work or Derivative Works in any medium or form, with or without modifications, whether in Source or Object form;

2. resell, rent, lease, lend, sublicense, or otherwise transfer the Work or any license to it to a Third Party;
3. share, publish, or otherwise make the Work or its asset files available to anyone outside Your licensed Seats;
4. store the Work or its asset files (including any provided source code) in publicly accessible repositories or locations (for example, public Git repositories, public package registries, or public file shares);
5. modify, adapt, translate, or create Derivative Works of the Work, except to the extent expressly permitted for integration into Your own applications or where mandatory law allows;
6. reverse engineer, decompile, or disassemble the Work, except to the extent such activity is expressly permitted by mandatory applicable law and cannot be excluded by contract;
7. remove or alter any copyright, trademark, or other proprietary notices.

7. Source Code Confidentiality

Where the Work is delivered with source code, that source code is licensed solely so that You can build and ship Your own products and applications. You may not sell, share, sublicense, publish, redistribute, or otherwise make the source code (in whole or in part) available to any Third Party, and You may not use it to create a competing product. The source code must be kept confidential and must not be placed in any publicly accessible repository.

8. Ownership

The Work is licensed, not sold. All intellectual property rights in and to the Work, including any source code, remain the exclusive property of the Licensor and its licensors. No rights are granted other than those expressly set out in this License.

9. Submission of Contributions

Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

10. Trademarks

This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work.

11. Disclaimer of Warranty

Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR

CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. Licensor does not warrant that the Work will be uninterrupted, error-free, or that it will detect or prevent every form of tampering, cheating, or reverse engineering. You are solely responsible for determining the appropriateness of using the Work and assume any risks associated with Your exercise of permissions under this License.

12. Limitation of Liability

In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall the Licensor or any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if the Licensor or such Contributor has been advised of the possibility of such damages. To the maximum extent permitted by applicable law, the total aggregate liability of the Licensor and any Contributor arising out of or relating to the Work or this License shall not exceed the amount You paid to the Licensor for the Work giving rise to the claim in the twelve (12) months preceding the event. Nothing in this License excludes or limits liability for damages arising from injury to life, body or health, for damages caused by intent or gross negligence, or for any other liability that cannot be excluded or limited under mandatory applicable law.

13. Indemnification

You agree to defend, indemnify, and hold harmless the Licensor and each Contributor from and against any and all claims, damages, losses, liabilities, costs, and expenses (including reasonable legal fees) brought by any Third Party arising out of or related to Your use of the Work, Your breach of this License, or any product or application You distribute that incorporates or was produced using the Work.

14. Term and Termination

The Licensor may suspend or terminate Your access and licenses if You materially breach this License, in particular the Seat limits in Section 4 or the restrictions in Section 6. Upon termination, Your right to use the Work ends, and You must cease all use of the Work and delete any provided source code. Sections that by their nature should survive termination (including Ownership, Disclaimer of Warranty, Limitation of Liability, and Indemnification) will survive.

15. Modification of Terms

The Licensor may modify the terms of this License from time to time. The Licensor will indicate a new date on the updated version and, where appropriate, notify You. Your continued use of the Work after the updated terms take effect constitutes acceptance of the modified terms.

16. Governing Law and Jurisdiction

This License is governed by the laws of the Federal Republic of Germany, excluding its conflict-of-law rules and the UN Convention on Contracts for the International Sale of Goods (CISG). The Work is offered exclusively to businesses, entrepreneurs, and self-employed professionals acting in the course of their commercial or independent professional activity (B2B), and is not directed at consumers within the meaning of Section 13 of the German Civil Code (BGB). To the extent permitted by law, the exclusive place of jurisdiction for all disputes arising out of or in connection with this License is Münster, Germany. The full GuardingPearSoftware Terms of Service additionally govern the use of the Work and shall control in the event of any conflict with this License.

17. Severability

Should any provision of this License be or become invalid, void, or unenforceable in whole or in part, the validity and enforceability of the remaining provisions shall not be affected. In place of the invalid, void, or unenforceable provision, the applicable statutory provisions shall apply. The same applies accordingly in the event of any gap (Regelungslücke) in this License.

END OF TERMS AND CONDITIONS
